This ranking shows how much those programs practice *addition and subtraction with regrouping*, how well they teach *multiplication and division number facts*, and how strongly they stress *standard multiplication and division algorithms*. It is relevant to other elementary grades also, since each series will repeat there the pedagogy we identify in grade 3. We can fax, email, or snail-mail 8 pages of FREE documentation.

Publishers tout *teaching aides*. We stress *subject matter content*. Publishers tell you their *strengths*. We include their *weaknesses*. No textbook publisher funds us in any way. We have no financial stake in the textbook industry. Unlike publisher sales reps, we have no monetary interest in any adoption. The individuals and few small foundations who support us have no ties to any textbook company to our knowledge.
